Battle on Prohibition Members of Commission Not to Receive Any Compensation for Services.

In the house on Saturday, the committee on deaf and blind introduced a ostitute prohibition bill in the bill which, if passed, will create a by which, rumor says, he hopes | commission to have charge and care of his way to congress and put the adult blind. The bill provides as

follows:

That there is hereby created a state board to be known as the Utah commission for the adult blind, which shall consist of five trustees, the governor to be president of said board, the four other members to be appointed by the governor, by and with the consent of the senate. Two of the trustees first appointed shall serve for two years, and two for four years, and until their successors are duly appointed and qualified. At the expiration of the term of office of any trustee, his successor shall be appointed by the governor, with the advice and consent of the senate, for the term of four years. Each member of the board, before entering upon the duties of his office, shall subscribe to the constitutional oath and execute a bond to the state, with sureties to be approved by the secretary of state, in the penal sum of five thousand dollars conditioned for the faithful discharge of his duties. The oath and boat shall be delivered to the secretary of state.

No member of the board shall receive

shall be delivered to the secretary of state.

No member of the board shall receive any compensation for his services as such member, but may be paid his actual expenses incurred in attending meetings of the board or its committees, or attending to any business thereof under the authority of the board or of its committees. No partisan, political or religious belief shall be required as a qualification of any beneficiary or of any instructor, officer or employee of the said board.

In The Tribune of Saturday appeared a story to the effect that the outside members had come to the conclusion that the Salt Lake delegation, or at least a majority of the delegation, had formed a combination to control legislation from now until the legislature adjourned. That this coterie has attempted this is beyond question. The expose in The Tribune alarmed the The expose in Tho Tribune alarmed the gang and there were explanations. lege and said:

Mr. Holman's Explanation.

It has been frequently alleged, and to my mind, from the face of the facts, it is very apparent that certain combinations have been entered into for the purpose of either facilitating or retarding legislation. At present it tooks like Sait Lake county is against the field. This has been occasioned by the attitude and actions of certain Sait Lake representatives, who, by their own presumptuousness and overabundance of promiscuous talking, have made themselves obnoxious to a majority of the members of this house, in fact, they have been so incessant and unreasonable at times that they have unwittingly excited a certain prejudice against any and all measures which they choose to favor.

Gentlemen, I am about to take an active part in defending certain measures which directly and only affect Sait Lake county, and I shall be associated with the same gentlemen to whom I have just made reference. I trust that in the consideration of these measures you will not permit the same prejudice to operate as has been the case in other measures which these gentlemen have advocated.

Speaking for myself, I will say that I heartly disapprove of the proposition to ally the Sait Lake members against the rest of the state. To this I am not and will not be a party. I consider my first duty to be that of safeguarding, so far as possible, the welfare of the district which sent me here, and my personal actions in all matters before us have been guided by a deep feeling of jealousy for the interests and good of Bingham. I am unwilling to compromise the interests of the camp to any cause unless it be for the camp to any cause unless it be for the greater good of the state at large. In all my actions, I would have it understood that I am acting absolutely free and alone, and without the conlines of any clique, clan or combine.

"I say here and now, Mr. Speaker, that the commissioners of Salt Lake county have a ring that you could not break through with a Gatling gun. These commissioners want this bill to be passed and enacted into law in order that they can put more of their relatives in official place and then perpetuate the machine. I am against the bill, Mr. Speaker and gentlemen of the house, and it should not pass. It is an outrage and it will enable a steal of \$23,000 to be perpetrated upon the taxpayers of Salt Lake county. I am against the bill. Neither the pauper elerk nor his assistant, who have been illegally paid by the Salt Lake county commissioners, have thus far made any report of the doings of the board regarding the poor of Salt Lake county for last year."

This was the text of an address made by Claude Russell of Salt Lake county when house bill No. 222, the bill which gives the majority of the board of county commissioners opportunity to place some more of their relatives and other members of the royal families of Salt Lake at the public crib, to be kept there at the expense of the taxpayers, came up.

Mr. Morris explained the bill. Some one had to, for there had been a request made that it be not printed. This of itself should have been evidence enough that there was a steal of some ate the machine. I am against the

of itself should have been evidence enough that there was a steal of some kind in it. Mr. Morris of the judiciary committee attempted to explain it. He lives in Washington county, where there is a population of 4612 people, therefore the judiciary committee put him forward as the spokesman for a county that has more than one-quarter, if it does not contain one-third, of the en-tire population of the state. He had talked with the commission-ers and the county attorney, and from

them he learned exactly what Salt Lake county needed. Finally the bill was amended so as

to provide for but one pauper clerk and one assistant. In view that no printed copy of the bill was had, because had it been printed the members could have casily seen the nigger in the woodpile, many members voted for its final passage that, had they had opportunity to study the bill, would have voted in the negative.

Representative From Salt Lake County Resents a Statement in Daily Bulletin.

In the house on Saturday afternoon, Mr. Russell of Salt Lake, arising to a question of personal privilege, laid down the law and read the riot act to the publisher of the Daily Bulletin and incidentally to several others. The Daily Bulletin of Thursday printed this

statement: "Representative Russell has stated privately that he knew of the payment of a large sum of money by the liquor interests, and knew of a district in

interests, and knew of a district in the center of town where some of the money was spent."

In replying to this, Mr. Russell said: "I hold in my hand a copy of the Daily Bulletin' No. 4, which has been left on my desk. In answer to the charges made in this sheet against me I want to brand them as infernal lies. I am reliably informed that the man who signs his name to this bulletin is not the author of these statements, but that the author is Parley P. Christensen. I don't care who the author may be. I wish to here and now brand the statement made against me as a falsehood made out of whole cloth. It is a lie pure and simple."

To That End He Would Add Another Chapter to the State Document.

There are several constitution doctors in the house, each of whom believes that he has the real panacea for the ills of the instrument adopted several years ago, and under which we are now working. Mr. Ashton is the latest to come to the front with a remedy. Saturday he introduced the following joint resolution, which he hopes the legislature will submit to the people at the election in 1910. The resolution reads:

That there shall be submitted to the qualified electors of the state of Utah at the next general election an amendment to section 17 of article 7 of the state constitution, relating to the care and management of public moneys in the hands of public officers, and providing for a state depository board to direct the depositing of state moneys in the possession of the state treasurer, so that said section 17 will read as follows:

The governor state auditor and state

depositing of state moneys in the possion of the state treasurer, so that said section 17 will read as follows:

The governor, state auditor and state treasurer are hereby constituted a state depository board with full power and authority to designate depositories with which all funds in the hands of the state treasurer are hereby constituted a state depository board with full power and authority to designate depositories with which all funds in the hands of the state treasurer shall be deposited; and at such rate of interest as may be prescribed by law. When money shall have been deposited in existence nearly three years.

Mr. Brazier intends to devote his entire time to the new company and will have general charge of the advertising operations of the company in the United States, Canada and Mexico.

The company was first known here by its supplying the partitions for the new Judge building. Since then it has increased in popularity and its material has been used in a number of buildings. General offices of the company will be in Salt Lake City, and it is also intended to establish the main factory here.

D. C. Dunbar Gets Contract.

David C. Dunbar will be awarded the contract to furnish the iron pipe and curb boxes for water main connections for 1909, and the National Meter company the contract to furnish the meters. The waterworks committee decided at a meeting Saturday morning to recommend these bids to the city council for a creptance and the recommendation no doubt will be followed.
